

NORTHERN VERTEX  
MINING CORP

**U. S. CONGRESSMAN DR. PAUL GOSAR TOURS NORTHERN VERTEX'S MOSS GOLD MINE**

**July 10th, 2020, Vancouver, B.C. - Northern Vertex Mining Corp. (TSX.V: NEE) (OTC Nasdaq Intl.: NHVCF) (the "Company" or "Northern Vertex")** is pleased to report that U. S. Congressman Gosar visited the Company's Moss Gold Mine located in NW Arizona.

Ken Berry, President and CEO stated, "Congressman Gosar has always been supportive of our efforts in bringing the Moss Mine forward from an exploration project to become a producing mine and a significant employer. All of us here at Northern Vertex greatly appreciate his contribution to the success of the Moss Gold Mine over the past 8 years."

Dr. Gosar was accompanied by Tyler Carlson, CEO and Rick Campos, COO of Mohave Electric Co-operative (MEC) and senior Vertex personnel on the review of progress of the 24.9 KV powerline, which will allow Northern Vertex to decommission its diesel generators and move to grid power supplied by MEC.

The Company would like to thank Dr. Gosar for his recommendation that Northern Vertex consider the Energy Efficiency and Conservation Loan Program (EECLP) of the U.S. Department of Agriculture. The EECLP provides funds to reduce emissions from generation of electricity and help strengthen rural economies through job creation for energy efficiency and conservation projects. MEC has provided invaluable technical assistance in the design of the powerline and provision of EECLP funds for the construction of the powerline.

Dr. Gosar is Chairman of the Congressional Western Caucus and invited Northern Vertex to make a presentation on the permitting challenges of the Moss Mine Expansion Project to the Caucus. The resultant cooperation between federal, state, county and city government agencies and other stakeholders in the NEPA permitting process enabled community-based solutions, timely approval of the Mine Plan of Operation, and a plan that ensures excellent environmental stewardship.

***About Northern Vertex Mining Corp.***

Northern Vertex Mining Corp. is focused on low cost gold and silver production at its 100% owned Moss Mine in NW Arizona. The Company has experience across all areas of operations, mine development, exploration, acquisitions and financing of mining projects. With operations at the flagship Moss Mine, the Company intends to consolidate additional producing or near-term production gold assets within the Western US. Through mergers and acquisitions Northern Vertex's corporate goal is to become a mid-tier gold producer.

ON BEHALF OF THE BOARD OF NORTHERN VERTEX

"Kenneth Berry"

President & CEO

**Cautionary Note Regarding Forward-Looking Statements:**

*This news release contains statements about our future business and planned activities. These are “forward-looking” because we have used what we know and expect today to make a statement about the future. Forward-looking statements including but are not limited to comments regarding the timing and content of upcoming work and analyses. Forward-looking statements usually include words such as scheduled, may, intend, plan, expect, anticipate, believe or other similar words. Forward-looking statements are necessarily based upon a number of factors and assumptions that, while considered reasonable by the Company as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Many factors, known and unknown, could cause actual results to be materially different from those expressed or implied by such forward-looking statements. We believe the expectations reflected in these forward-looking statements are reasonable. However, actual events and results could be substantially different because of the risks and uncertainties associated with our business or events that happen after the date of this news release. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date made. As a general policy, we do not update forward-looking statements except as required by securities laws and regulations. US investors should be aware that mining terminology used for Canadian mineral project reporting purposes differs significantly from US terminology.*
